The Bluebird Report

The Innsbrook bluebirds now have 60 nests containing 118 eggs and 30 chicks. Sixteen more chicks have fledged.

Once the female bluebird has laid all her eggs (three to six) she will start to incubate them. The eggs need to be kept warm all the time at 95 degrees. The bluebird's body temperature is 106 degrees. The female develops a brood patch which she presses over the eggs to warm them. A brood patch is a bare area on the bird's breast where the down feathers have been shed and where an increased number of blood vessels develop. If the eggs get warmed to 107 degrees or higher, they will die.

Please send your bluebird reports and/or questions to Shirley at saritsema@gmail.com.

Fishing Club Tip of the Week: Stop on Top

If you're fishing a topwater lure and the fish keep blowing-up on the plug or tail-slapping it without hitting it, try stopping it cold and counting to five. A lure bobbing on the surface looks like a stunned bait fish – easy pickings – and will often draw a vicious strike.

Please let us know if you have any questions about fishing or maybe a good tip and we will be glad to add it to our list. Please send all requests to innsbrookfishingclub@gmail.com.

IBK Adventure Club- Special Thanks

The IBK Adventure Club would like to thank everyone for their participation in the first Adventure Crawl held last weekend. With about 60 attendees, we met up for a themed event across five Innsbrook Property Owners homes who hosted the group.

Special thanks to the hosts: Evens, Rahn, Benz, Bock, and Moore.

TREEHOUSE LIVING

Innsbrook began with a small cluster of A-frames and a few like-minded families who dreamed of an escape where they and their kids could explore nature's wonder away from the worries of modern life. The definition of modern life has changed quite a bit in the intervening decades, but that founding dream continues to converge with reality every day for Innsbrook families. And our adventure westward in the Tyrolean Region continues with our latest expansion, treehouse developments.

Now is your chance to be a part of the future of Innsbrook. Discover a panorama of woodland dreams and rich valleys with a unique treehouse development which will offer 13 lots, ranging from 1.3 to 1.85 acres, available this summer. Treehouse models are designed to elicit the whimsical feeling of floating amid lofty tree tops while being embraced within exceptional natural scenery the Innsbrook landscape provides. With 146 acres of terrain below, treehouse owners will have easy access to nearby hiking trails and can easily explore the peaceful Midwestern forests and unique wildlife that reside within Innsbrook's gates.

Ranging between 1,000 and 1,600 square feet, the one, two, and three bedroom treehouses will each boast maintenance-free siding options, intended to put a modern twist on a home hidden within nature's shadows. Elongated windows will line each side of the great room, providing a breathtaking view of the valley below, while resting on steel beams lifted 4-12 feet in the air.

Primary residence or vacation retreat? The choice is yours!

The Sonnenberg
This one bedroom, two bathroom layout offers a spacious great room and master bedroom. An optional deck lines the entire rear of the home, providing additional views of the forest below. Available in two different roof lines.

The Wintergarten
Two bedroom, two bathroom model with nearly 1,400 square feet of open living space and an expansive rear deck tucked amid towering trees.

The Waldenberg
With 1,600 square feet of lofted, open living space, this three bedroom, two bathroom layout features two optional separate deck and roofline options.

To view the floorplans, please visit https://www.innsbrook-resort.com/real-estate/communities/treehouses/.

Interested in purchasing a lot? Please contact Innsbrook Properties at property@innsbrook-resort.com or call ext. 9199.
