UPCOMING EVENTS

2nd Annual Jeep Safari - This Weekend!

Sunday, September 30, Meet at Farmhouse before 1 p.m.

Innsbrook Property Owners who have a JEEP wrangler, two-door, CJ5 model are invited to join a tour led by Ed Boyce through the Tirol wilderness. Those who joined us last year had a great time and if you have an empty back seat ... invite some adventuresome folks to come along! SUVs, pickups, etc. will not be permitted as we cannot be responsible for vehicle damage from inadequate skid-plates. If you are not sure what a skid plate is, this is probably not an event for you. Four-door Wranglers also will not be allowed due to short turning radius and long-wheelbase characteristics.

No exceptions! This event will last a couple of hours. Weather permitting. Bring your picnic basket, blanket, refreshments, camera, etc. We leave the Farmhouse area at 1 p.m. sharp! Call ext. 180 with questions. ***NEW* Boxed Meal Option** - This year we will be adding a boxed meal option from the Clubhouse for \$9.49: a fried chicken dinner (two pieces, choice of white or dark meat), coleslaw, potato salad, two cookies and bottled water. Please call ext. 207 with questions or to place your order; orders must be placed before 10 a.m. Sunday (cash or lot charge only, please). Dinners will be delivered to the Farmhouse by 12:30 p.m.

NATURE NOTE

Acorns Begin to Fall

This is the time of year when acorns begin falling to the ground. The acorn is the fruit of the oak tree. It is a nut, usually containing a single seed, enclosed in a tough, leathery shell.

Oak tree acorn

Acorns are one of the most important wildlife foods where oak trees are present. They are attractive to animals because they are large and rich in nutrients. Birds, including jays, pigeons, ducks and woodpeckers, feed on acorns, as well as mammals, such as mice, squirrels and deer. However, acorns can be toxic to other animals, such as horses. Acorns appear only on adult trees, so they are often a symbol of patience.
