Artists at the Cabin

Sunday, June 1, 2014, 11 a.m.-4 p.m., LC

An art sale benefiting the Innsbrook Historical Society will showcase the work of Innsbrook artists, including pieces inspired by the cabin. An artist will be on hand painting a likeness of the cabin as the sale is ongoing and there will be bluegrass music by Blue Strings. Payment forms accepted are cash and checks. Artist biography:

Madonna Laws has been weaving baskets for over a quarter of a century. Her artistic development has matured into a style that's as unique as nature itself. Before she begins weaving Madonna studies the antler, grapevine, turtle shells, etc. that she will use as the basis of her basket for days or sometimes weeks until it 'talks to her.' Only then does she begin to shape a picture of the completed composition in her mind. Each completed piece has been donated to auctions for the benefit of local charities, given as gifts to family/friends, or retained in her private collection. Her work has never been offered for sale before.

Honor Servicemen & Women

We will print the names of the servicemen and women in your family in the Memorial Day *Village Views* edition, which is dedicated to the family and friends of Innsbrook property owners and employees who serve(d) in the armed forces. If you submitted a name last year, we will reprint that message in this year's tribute. If you need to update last year's entry or would like to make a new entry, please submit the name and information to Karen (ext. 180) by Friday, May 16. You can also fill out this online form:

NATURE NOTE

Nature's Garbage Collectors

Turkey vultures are large scavengers that migrate north each spring. Because vultures often ride weather fronts sweeping up from the south, spring squalls are sometimes called "buzzard storms."

Turkey vultures are experts at static soaring, the same flight technique used by hang gliders. Large, broad wings help vultures soar overhead for long periods. Air rising from the sun-warmed earth and updrafts above hills and bluffs keep vultures aloft for hours without a single wing beat.

Despite their homely appearance up close, and undeserved bad reputation, vultures provide a valuable service. They are nature's garbage collectors, consuming dead animals in fields and along roadsides. Good eyesight and a keen sense of smell make vultures experts at finding dead animals. They can detect food from miles away by smell alone.

This Nature Note is provided by the Missouri Department of Conservation. Photo by Kurt Kruger.

INNSBROOK CLUBS

Village of Innsbrook Garden Club Meeting

The Village of Innsbrook Garden Club will have its 2014 Spring Membership Meeting on Friday, April 25, 10 a.m.-noon at the Conference Center. All members and prospective members are invited to attend. Come and find out what fun events we have planned for this season. Our featured speaker will tell us "All About Bees." There will be light refreshments, attendance prizes, and time to renew gardening friendships. With questions contact Mary Ann Barton at maryann2208@mac.com or 636-745-0107. Hope to see you there.

Weekly Bluebird Report

We have 20 new bluebirds at Innsbrook this week with many more on their way! This week's count shows 52 completed nests, 199 eggs, and 20 chicks. On a sad note, four of our boxes were raided with a loss of four nests and 18 eggs.

INNSBROOK NEWS

A Few Words on an Indelicate Subject

The only things going into your toilet should be water, human waste, and toilet paper. Anything else (including wet wipes, etc., which are incorrectly advertised as “flushable”) can cause problems with grinder pumps, sewer lines, septic tanks, and treatment plants. This causes Innsbrook problems, and, by extension, costs you money. It can also cause sewer backup problems. On a related topic, if you have a grinder pump and your home or chalet is going to be unoccupied for more than a couple of weeks, please purge the system prior to leaving. Flush the toilet a couple of times and let the water run for a minute or so to allow the pump to activate and pump itself down. Ext. 167.

Pool Closed in 2014

Innsbrook’s swimming pool will be closed for the 2014 season. We regret any inconvenience this may cause. Construction of the new pool complex is anticipated to be finalized for the 2015 season.

Fishing Rules and Regulations

All of the lakes at Innsbrook are well stocked. Alpine Lake will have a protected slot length limit on bass of 12” to 18”, which means you can keep bass under 12” or over 18”, with a daily limit of five. All other lakes release bass between 12” and 16”. Crappie 10” or longer and bluegill and catfish of any size can be kept (including those from Alpine Lake) with a daily limit of 10 crappie. Release all paddlefish caught. Ext. 193.

Alex Clerc reeled in an 80 lb. paddlefish on Lake Aspen on April 17.

Main Gate Construction

Please pardon our mess while a dedicated exit lane is being added at the Main Gate. It will be located north of the existing entrance/exit to better direct the flow of traffic. Construction is slated to be completed before Memorial Day.

Phone Directories Available

The 2014 Innsbrook Property Owners’ phone directory is now available. Directories are reserved for those who requested to be listed in the phone book. Stop by the Property Management Building to pick up your copy. One per household; additional phone directories are \$2 each.
