## Amenity Complex Construction Update

In the last week of July, conditions were finally dry enough to allow the construction crews to begin digging and pouring

the footings of the East building, which will house the fitness center, multi-purpose rooms and bath and shower areas for the pool. On Thursday, August 6, workers poured the south end footing and short wall, and since then they have started putting up the forms for the walls for the basement (pictured). Soon after the foundation is complete and the area is back-filled with dirt, the construction crew will begin digging the pool and pouring footings on the West building (weather permitting.) We expect to see this work on the pool begin in the next couple of weeks. Things are progressing steadily at this point and we look for that to continue throughout the year! For updates, go to

[www.innsbrook-resort.com/property-owners/amenity-complex](http://www.innsbrook-resort.com/property-owners/amenity-complex).

## New Weekly/Daily Specials at the Clubhouse

The Clubhouse Bar & Grille introduces a weekly Wednesday Night Chef's Choice Special! You can get a salad, dinner and dessert for \$12.95 per person, and there will be at least two entrées to choose from each week. You can also now take advantage of the Golfer's Pizza Special: One 14" two-topping pizza, 14 chicken wings and a bucket of beer for \$40. For all the breakfast lovers out there – the Clubhouse will offer an Omelet Station every Sunday from 8 a.m.–noon for \$10 per person, including hash browns and fruit. See page 4 for Clubhouse hours. Ext. 207.

## IBK Car Show, Chili Cook-Off: Canceled

## Kyp Has a Wonderful New Home!

Kyp, the purebred border collie who worked to keep the geese away at the Innsbrook golf course, retired this year and needed to find a forever

home. Thanks to the generosity of property owners Kathleen Kremer and Richard McFall — she found one right here at Innsbrook! The happy family enjoys energetic exploratory walks and trips to our Lachenhund Dog Park. You can follow all of Kyp's IBK adventures on Rich and Kath's nature website:

We are in need of single serve drink mix, travel-size toothpaste and travel-size Kleenex, also hotel size shampoo, conditioner and lotions. ## NATURE NOTE

### How Birds Stay Cool

On a hot summer day, watch a bird very carefully. You'll never see them sweat, because birds don't have sweat glands! So how do they keep cool? One way is through panting. As the bird breathes rapidly, heat is carried out of its body through the lungs and air sacs. The lungs are a one-way system, so cool air coming in doesn't get mixed up with warm air going out. Bare skin on the bird's legs, face and beak also help with cooling. So does puffing out feathers, fluttering wings or splashing in a puddle or birdbath. And soaring birds like hawks can simply ride the updrafts far above ground to cooler air. Closer to the ground, birds can also do what we do to avoid overheating — stay busy during the cooler hours and take it easy in the shade as the day heats up.
