INNSBROOK NEWS

Eaglet Update — My, How They've Grown!

The two young eagles who hatched right here at Innsbrook this summer have left the nest and can be spotted in the skies over Innsbrook! In just a few months, they've gone from fuzzy gray babies to dark brown birds of prey. Bald eagles reach maturity at age 4 or 5, and usually breed near where they were born. There has also been a third young bald eagle spotted in the area.

Pave the Way for Future IBK Generations!

A brick walkway is planned at the new Amenity Complex and customized bricks may be engraved with your name or the name of a business, family, friend or in memory of a loved one. Commemorative benches and playground musical instruments are available as well. All funds will help support the building of the new children's playground at the complex. Preserve your Innsbrook pride and leave a permanent testament of your love for Innsbrook by ordering your brick online today at www.innsbrook-resort.com/property-owners/bricks.

Kyp Has a Wonderful New Home!

Kyp, the purebred border collie who worked to keep the geese away at the Innsbrook golf course, retired this year and needed to find a forever home. Thanks to the generosity of property owners

Kathleen Kremer and Richard McFall — she found one right here at Innsbrook! The happy family enjoys energetic exploratory walks and trips to our Lachenhund Dog Park. You can follow all of Kyp's IBK adventures on Rich and Kath's new nature website: <http://ibknature.com/kyps-tale>.

NATURE NOTE

Did You Know?

There are more types of beetles than any other insect in the world. Perhaps the most well known is the lady bug. You may traditionally think of them as red with black spots, but they actually come in several n colors. Have you ever seen a black ladybug with red spots, like the one pictured here?
