NATURE NOTES

A Mushroom That's a Trick, Not a Treat

October is the essence of autumn. It also embodies the spirit of Halloween. And for many of us, there's nothing more iconic to Halloween than the Jack-o'-lantern. But did you know Missouri also has a Jack-o'-lantern mushroom? While pumpkins are edible, in the spirit of a spooky holiday, the mushroom Jack-o'-lantern is poisonous.

The Jack-o'-lantern mushroom surely looks the part. It is bright orange to yellowish orange, with a convex cap that becomes flat to funnel-shaped with a center that's sunken in. The smooth skin is similar to that of a pumpkin. Its narrow gills are sharp-edged and descend from the stalk, which is curved . . . not unlike the stalk of a pumpkin.

In addition to trying to trick us into thinking they're pumpkins, it's said that these mushrooms can pull off another Halloween trick; they can glow in the dark, just like a Jack-o'-lantern! The bioluminescent gills of fresh specimens sometimes give off an eerie, faint greenish glow at night.

You can find Jack-o'-lantern mushrooms growing in large clusters at the base of trees, on stumps, or on buried wood from July and throughout October all over Missouri. Eating a Jack-o'-lantern mushroom would most definitely not be a treat, however. Though they are not typically deadly to healthy adults, a mild to severe upset stomach lasting for several days would result from making these mushrooms a Halloween snack.

Like trick-or-treaters, Jack-o'-lanterns can masquerade as something else they aren't either. People often confuse them with the edible and delicious chanterelle mushroom because Jack-o'-lanterns have very similar colors and shapes. Always positively identify any mushroom you intend to eat before doing so!

For a Halloween trick this month, why not hike through the woods and try to spot the Jack-o'-lantern mushroom lurking on a forest floor? You'll know it's doing the vital job of recycling while masquerading as a pumpkin. Just don't try to make a "treat" out of it. Save that for your Halloween candy.
